

Tools of the Trade II Evaluation

Inspiring Young Minds to be SET* Ready for Life!

Please indicate your knowledge and understanding before the workshop, and your knowledge and understanding after the workshop. (Please mark only one choice for **before** and one choice for **after**.)

Retrospective Evaluation	<u>Before</u> this workshop did you...					<u>After</u> this workshop did you...				
As a result of attending this training, I:	Not At All	Slightly	Somewhat	Very	Absolutely	Not At All	Slightly	Somewhat	Very	Absolutely
1. Understand the difference between hands-on and inquiry or experiential learning methods.										
2. Feel confident in facilitating science, engineering and technology (SET) learning in out-of-school-time settings.										
3. Understand the elements of high quality SET learning in out-of-school-time or afterschool settings.										
4. Understand how youth interests and questions can provide opportunities to help them learn about SET.										

How effective was the session?

1 = Not Effective / 5 = Very Effective

a. Presentation style	1	2	3	4	5
b. Content of session	1	2	3	4	5
c. Instructors effectiveness	1	2	3	4	5

1. List the three most important things you learned that you will use in your program...

a.	b.	c.
----	----	----

2. The one thing I would change about this training is...

3. We welcome any other comments you would like to make...
